

Preparations for test operations

With (((eTicket Ready, VDV eTicket Service GmbH & Co KG (VDV-ETS) provides an introductory package for transport companies and transport authorities that want to initiate technical testing for later participation in (((eTicket Deutschland. (((eTicket Ready is not necessary once FULL (((eTicket has been booked.

Advantages at a glance

(((eTicket Ready provides transport companies and transport authorities the following services for running (((eTicket Deutschland in their organisations:

- VDV KA release package (including VDV KA specifications and XML schemas)
- Allocation of an OrgID (security level 2 for test operations)
- Use of (((eTicket Deutschland's security management program for integration tests
- Access to the central services ZVM and KOSE via ION for test operations
- Advice and support from VDV-ETS

ASM-Tool

ASM tool (asmtool.eticket-deutschland.de) is used to manage key application and security management processes for (((eTicket Deutschland. They include (((eTicket Deutschland registration processes and security component ordering functions.

A few steps is all it takes

The ASM tool makes ordering (((eTicket Ready easy:

1. If you haven't already, register yourself and your company in the ASM tool. You can add new users using the ASM tool.
2. Order (((eTicket Ready in the ASM Tool.
3. Your company will receive a level 2 OrgID, which is used to identify your company in all agreements and processes.
4. Sign the general agreement for manufacturers and the membership agreement with T-Systems. Then you will receive an OTP token from T-Systems for the online authentication process.

When the process is complete, you and your company can order all the necessary security components (SAMs, keys, certificates, user media) for your eTicket system and use of the systems provided.

The (((eTicket Ready fee is €50 per month excluding VAT.

Minimum contract period: 24 months (contract will be extended by one year if it is not terminated at least three months before end of the current contractual period). There is a special termination option available if FULL (((eTicket is booked.

This offer is intended exclusively for transport companies and transport authorities for participation in (((eTicket Deutschland according to the VDV Core Application.
